<ul style="list-style-type: none">• <i>UNE-P for Residential</i>	<ul style="list-style-type: none">• <i>Ensure continued availability</i>	<ul style="list-style-type: none">• <i>No UNE-P...no/limited residential competition</i>
<ul style="list-style-type: none">• <i>UNE-P for Business</i>	<ul style="list-style-type: none">• <i>Ensure continued availability</i>	<ul style="list-style-type: none">• <i>UNE-L replicability and scalability</i>
<ul style="list-style-type: none">• <i>TELRIC Pricing</i>	<ul style="list-style-type: none">• <i>TELRIC = Cost + Profit for Bells</i>• <i>U.S. Supreme Court affirmed</i>	<ul style="list-style-type: none">• <i>Monopoly-set “market-based” pricing destroys competition</i>
<ul style="list-style-type: none">• <i>Performance Metrics and Penalties</i>	<ul style="list-style-type: none">• <i>Must be simple, measurable and meaningful</i>• <i>Financial guarantees for inadequate service</i>	<ul style="list-style-type: none">• <i>Compensate competitors for lack of compliance</i>

McLeodUSA's Public Policy Position

- *Do not change '96 Act (rules of the game)*
- *FCC must not restrict competitors' utilization and access to the unbundled loop*
- *All elements of UNE-P are essential... key for residential and rural competition*
- *Pricing should be forward-looking and incremental (i.e. TELRIC)... not monopoly-set "market-based" pricing*
- *Simplify and implement meaningful and measurable performance metrics and penalties*
- *Ensure effective long-term competition.. for local, long distance and data*
